Heat Pump Water Heater

Version: July 2025

- Member must be in good standing with the Cooperative
- Submit within 90 days of purchase.
- The appliance must be ENERGY STAR™ certified. The minimum UEF for a heat pump style water heater is 2.2.
- Rebate applies only to 40 gallon or larger heat pump water heaters.
- If the new unit replaces an old unit, the efficiency rating of the OLD unit must be less than 0.90.
- Tankless water heaters are NOT eligible for this program.
- Gas water heaters are NOT eligible for this program.
- Replacing a gas water heater with a heat pump water heater is eligible for this program.
- Rebates may be subject to load control programs. The participant agrees to allow the cooperative to control their heating and cooling equipment now or in the future.
- Limit of up to two (2) rebates per meter.
- Please allow 6-8 weeks for processing.
- Please keep a copy for your records.
- The appliance must be installed where electricity is supplied by the cooperative.
- Rebates are limited to eligible services (homes, lake homes, shops, barns, etc.) that purchase more than 6,000 kilowatt-hours of electricity from the cooperative on an annual basis.
- Please complete a separate application for each installation site.

DISCLAIMER

The cooperative is not responsible if your contractor, retailer, builder, or other party provides you with inaccurate information about the amount or conditions of the actual rebate. The cooperative will not rebate equipment that has been mislabeled, misrepresented, or previously owned. The cooperative reserves the right to inspect the equipment and its installation at the address indicated on the front of this application. The cooperative is not responsible for any lost, late, stolen, ineligible, misdirected or postage due mail. All completed applications will become the property of the cooperative. Rebate qualifications and amounts are subject to change at the cooperative's discretion and the program may end at any time without notice.
